

Requests must be made to the Polk County Assessor. The request covers both the Assessor's and Auditor's office websites.

<http://www.assess.co.polk.ia.us/web/info/aboutus/welcome.html>

In order to address the concerns of those who do not want us to make it that easy for someone to find where they live, we have decided to disable the name search capability for an individual upon written request. These requests will be considered confidential. The names of the owners will remain on the property record but simply will not appear in an attempt to search the files by name. Those who wish to avail themselves of this option are reminded that there are several private search services that can be utilized to locate individuals. Also the request should be made for a specific parcel and, if the parcel changes by virtue of a consolidation of two parcels or division of an existing parcel, a new request must be submitted. The requests must be signed and made in writing.
