PROCEEDINGS OF THE POLK COUNTY BOARD OF SUPERVISORS

The Board of Supervisors met in accordance with notice published in the Ankeny Times, February 26, 1959, in regard to zoning of Crocker, Douglas, Elkhart, Lincoln, Madison and Union Townships. Members present: J. F. Baillie, O. E. Armstrong, Nels Lund, B. E. Newell, E. W. Armel

The meeting was called to order by E. W. Armel, Chairman of the Board and then turned over to James V. Sarcone, Zoning Director.

Comments were asked from those present in regard to zoning of Crocker Township. R. E. Thorpe and John Wanamaker spoke in favor of the zoning in accordance with the engineer's recommendation. Ambrose T. McNerney expressed interest in 350 feet for a drive-in restaurant at the northeast corner of Orlabor Road and Highway 69. Don Anderson, engineer, stated that there was some commercial industry in that area. It was moved by Newell and seconded by Lund that the area at the NE corner of Orlabor Road and Highway 69 northward 320 feet by 350 feet easterly be zoned for a drive-in restaurant as recommended by Don Anderson, engineer. The vote as recorded on the motion was as follows: YEA Baillie, Armstrong, Lund, Newell, Armel

In regard to the location of trailers in Crocker Township, John Wanamaker stated that there are already trailers south of the John Deere Plant. He suggested that in commercial areas trailers be allowed. Normally those areas would be developed for industry rather than trailer parks. Trailers allowed only in C-3 - M-L - M-2 areas.

LeRoy Bachman, Crocker Township. It is my understanding that people who live in trailers don't pay property tax as such, but school buses are used to pick up these children which costs the taxpayer considerable. I don't feel these people are sharing the load of taxes and I would like to get a motion through to stop it now. Mr. Wanamaker concurred, also Mr. Thorpe.

Mr. Howlett. As you continue to develop houses in Ankeny, more burden is placed on taxpayers on school taxes.

Carl Kennedy in Madison, owns farm in Crocker. I would say to save on taxes we need more John Deere fellows. If area could grow industrially as well as residentally it would relieve the tax burden. I would like to sanction limiting of trailer camps.

Mr. Anderson stated that roughly 500 acres, exclusive of John Deere, is set aside for light industrial zoning in Crocker Township.

Comments were asked from those present in regard to zoning of Douglas Township. Mr. Mathis, property owner, stated that he has attended many zoning meetings but did not care to say anything at this time except that he would like to see the township zoned as

planned or proposed. He further stated that he would not care to speak for township on trailer camps.

Melvin Smith. I don't live in Douglas Township but am a member of the Bondurant Town Council. I am in accord with zoning as planned but we are not looking for trailer courts. I would like trailer courts to be struck out of light industrial areas. Mr. Sarcone asked if anyone in Douglas Township was opposed to zoning as planned. No objections.

Elkhart. No oppostion to zoning as planned.

Lincoln. Lawrence Fausch. I would like to see trailer courts banned in all six townships. Those industries should take care of their own trailer courts. Also I think we can get 51% of signers in Lincoln Township on billboards.

Mr. Armend. Those contacted in North Polk District agree that no more signs are to go into the area, also wouldn't care for trailer courts. Mr. Sarcone asks if anyone opposes the zoning in Lincoln Township as planned. No further discussion.

Madison. Carl Kennedy, speaking for a group from Madison Township. As yet not able to find anyone opposed to zoning as proposed. Unanimously approved unless, of course, there is someone I don't know about.

Union. No representatives at meeting.

General discussion showed an overwhelming majority of those present expressed a desire to have trailer courts excluded.

Comments on billboards from audience - one member of audience stated that he would like to see all the signs taken off the highway. Ray Griffieon expressed the opinion that he would like to see signs on highway, it lets you know what's in a strange city. Several expressed the opinion that they would be willing to leave the signs as they are, but not willing to add any more.

It was moved by Armstrong and seconded by Newell that a proper resolution be prepared by the County Attorney and presented at the board meeting Tuesday, March 31, setting forth the proposed zoning for the six townships. The vote as recorded on the motion was as follows: YEA Baillie, Armstrong, Lund, Newell, Armel

It was moved by Newell and seconded by Lund that the meeting recess until Tuesday, March 31, at 9:30 A.M. Vote: YEA Baillie, Armstrong, Lund, Newell, Armel

PROCEEDINGS OF THE POLK COUNTY BOARD OF SUPERVISORS

The Board of Supervisors met in public hearing at 7:30 P.M. April 28, 1959, in regard to a proposed amendment to change the classification of a certain tract of land within the boundaries of Webster Township Zoning District No. I; notice of such meeting having been published in the Grimes Citizen, March 27, 1959. Members present: O. E. Armstrong, Nels Lund, B. E. Newell, E. W. Armel Absent: J. F. Baillie

T. N. Wright, spokesman for Ipalco, addressed the board. The proposal with which the hearing is concerned is Iowa Power's request to rezone certain property in Webster Township Zoning District No. I described as

> That part of the north 3/4 of the SW¼ 17-79-24 west of the 5th P.M., Polk County, Iowa, which lies south of the interurban Railroad ROW (now known as the Des Moines & Central Iowa Railway Company)

from residential use to light industrial use so that a peak shaving plant could be established. Wright said the Lower Beaver road site was the best of several investigated because it is near a town border station where pipeline gas is transferred from Northern Natural Gas Co. to Ipalco. The new installation would consist of several propane tanks and some one-story buildings. A drawing of the proposed plant was displayed on the bulletin board. Reference was made to the plant located on East 14th, north of Broadway. He said that the company made no effort to make that plant attractive because the area was zoned for light and medium industry. He added that the company would refrain from using 1/3 of the proposed site near Lower Beaver road and plant trees and grass and that it would be an improvement to the area.

Charles Harris, an attorney for George Van Oel, stated that it was apparent that more than 20% living within 500' of the area in question objected strenuously and that the board had 48 letters and 200 signatures from nearby residents who oppose the plant. It is not a desirable structure to place in a residential area and it will not add to the residences in the neighborhood. It's been amply demonstrated that Iowa Power is in business to make money, and they don't make money planting parks, Harris said. The area has been zoned residential for five years and many people built in the area relying on the fact that it was a residential neighborhood. It would be spot zoning clearly. It would be the first break in zoning out there and once you break zoning, others are going to jump in and say, you did it for Iowa Power, why not me? Many would-be builders have postponed their plans until this is settled, and they would not build if the board allows the plant to be built. These people look to you not to let them down, Harris concluded. They've fought a fight for zoning out there for five years. Their feelings are more important than the convenience of Iowa Power.

Joseph B. Joyce, an attorney for Mr. & Mrs. R. J. Hankins, Mr. & Mrs. Will Hankins and Mr. & Mrs. Fred Fitzer, said that the petition of Ipalco explains more clearly what they intend to use the area for--referring to the plant drawing. He said that Iowa Power does not present a hardship case, but that the people do. If the petition is allowed, the area will be ruined. He suggested other uses for the area--such as a park, or church. The people do not want Iowa Power, let them find a better site.

Jim Bennett, an attorney representing his mother and father and himself, said it was the third time in the ring for him. We have been lacking in technical information--the information was as to other sites. We have heard general description of other sites. He suggested the site be moved northward.

Russell McBride--This area has been a fine residential area for five years. Many houses are being built everyday. I am confident that if you lived near, you would yell no.

Ted Miller. It does not make sense to zone residential and then turn around and spot zone.

Mr. H. Mueller. Objected to petition.

Mac Byers. Owns property adjoining this particular piece of ground. Bought the property simply because no industry in the vicinity.

Paul Jacobson. Built in this area with the hope that it would remain residential.

Phil Waters. Objected to a change in the zoning. It would cut down on the value of the property.

Mrs. P. J. Bralie. Objected to a change in the zoning.

Don Anderson, of Anderson Engineering Co, stated that he was convinced that Iowa Power has determined in their own studies that this is the best site for their particular use and the most economical site that they could find. I do question whether the board can justifiably approve a request of this nature at this site at the expense of the property owners since it is public utility. He felt that other sites were available, but perhaps more expensive. It is very obvious what the people wishes are.

It was moved by Armstrong and seconded by Lund To leave the zoning as is.
Vote: YEA Armstrong, Lund, Newell, Armel Absent: Baillie
